**H A Nicholson (1844-1899),
invertebrate palaeontologist:
bibliography and catalogue of
his type and figured material**

M J BENTON

EDINBURGH 1979

Preface

Henry Alleyne Nicholson described over 50 new genera and more than 300 new species and varieties of fossil invertebrates from both sides of the Atlantic and is one of the most significant descriptive palaeontologists ever to have worked in Scotland. His researches are well known and of fundamental taxonomic importance in certain phyla, particularly the Coelenterata, Bryozoa and Graptolithina. Later workers, however, have been hampered by difficulty in tracing Nicholson's type material which was scattered in many repositories where it has sometimes remained unrecognised. In 1967 and 1968 H.A. Nicholson's grandson, the late Dr Douglas N. Nicholson of Edinburgh, presented to the Royal Scottish Museum a collection of nearly 1000 thin sections containing several hundred type and figured specimens. Recently Mr M.J. Benton and Dr H.N. Trewin of Aberdeen University have recognised a great many of Nicholson's type and figured specimens in the collection of the Geology Department of that University (Benton and Trewin 1978b.) The Royal Scottish Museum has welcomed the extension to its own collections, as well as to other repositories, of Mr Benton's interest in recognising Nicholson's types. His work has resulted in the present publication, the first comprehensive statement of the whereabouts of known Nicholson type and figured material, which will be an invaluable reference for the many palaeontologists whose work brings them into touch with the mighty labours of H.A. Nicholson.

Like all such catalogues the present work is presented as a tentative statement and the Royal Scottish Museum will be glad to be informed of any errors or shortcomings which readers may discover in it so that its records may be corrected. The Museum thanks Mr Benton for the enthusiasm and hard work which has made possible the production of this catalogue.

C.D. WATERSTON
Keeper of Geology

Introduction

AIM

This catalogue is an attempt to list all type and figured specimens of H.A. Nicholson that can be traced. His work was extensive and covered nearly all Lower Palaeozoic invertebrate phyla, but his collections are now scattered through many institutions.

The present catalogue stemmed from work on the Nicholson collection in Aberdeen University (Benton and Trewin, 1978b). I visited most institutions containing Nicholson material (AUGD, RSM, BMNH, HM, GSM, GSE, UC) and corresponded with others (KM, DI, SM, GSC). Most of the visits were carried out in April 1977. Of his 3000 or so type and figured specimens, nearly three-quarters were identified with published figures during the present study.

H.A. NICHOLSON

Biography and work

Henry Alleyne Nicholson was born in 1844 at Penrith, Cumberland. He had a distinguished career as a student at Edinburgh and Göttingen Universities, obtaining degrees in medicine and science. His first post was as lecturer on Natural History in Edinburgh and he became Professor of Natural History at Toronto University in 1871. In 1874 he returned to a post in Newcastle before moving to St Andrews in 1875 and then to Aberdeen in 1882 where he remained until his untimely death in 1899.

Nicholson's work ranges over nearly all phyla of fossil invertebrates of the Lower Palaeozoic in particular. The bulk of his early work (1866-1872) was on graptolites and Lake District geology. In Canada he wrote monographs on the Silurian and Devonian fossils (71, 80). His work in the years 1873-1875 ranged over annelids, trace fossils (see 167), stromatoporoids, corals and Bryozoa. In 1876 he published a series of papers on Scottish Carboniferous Rugosa with James Thomson. Work with Robert Etheridge (jun.) on fossils of the Girvan district (123, 128, 133) and on tabulate corals (127) and monticuliporoids (135) firmly established the use of thin sections in taxonomic work on corals and bryozoans. Nicholson was one of the earliest workers to use thin sections in this way, and his papers of the period 1877-1889 recorded many important advances in the interpretation of internal structures. Apparently Nicholson cut all his thin sections himself, making over 4000 during his lifetime and, despite the primitive techniques used then, his slides are still useful. Examples of completed slides and unground thick sections on glass plates may be seen in RSM, BMNH and AUGD.

Nicholson's *Monograph of the British Stromatoporoids* (1886-1892) is possibly his most important work and is "the essential starting point and most fundamental work on stromatoporoids" (Lecompte, 1956: W123-4). W.A. Parks (1907, 1908, 1909, 1910) revised the Ordovician and Silurian stromatoporoids of North America and reproduced many of Nicholson's descriptions and figures, although he did not examine any of his original specimens. Stearn (1966) redescribed many of Nicholson's stromatoporoids and his work on Bryozoa is reviewed by Perry et al. (1973). Continuing monographic revision of Nicholson's Bryozoa is being carried out by A. Horowitz (Indiana) and associates.

The subject matter of Nicholson's 150 or so papers and monographs is summarised at the end of the bibliography and indexes to the 56 genera, 320 species and 18 varieties (= subspecies) that he founded are also given. Table 1 reviews the taxa he founded and shows the large range of phyla he studied and the shifts in his main interests over the years.

In addition to his original work, Nicholson published several successful textbooks on zoology and palaeontology which ran to many editions in Britain and America. He was deeply interested in education, promoting the teaching of science in schools and was an excellent lecturer and field-worker.

Further information on Nicholson's life will be found in the following obituaries:

Collections

Nicholson personally collected thousands of fossils in Britain (Lake District, South Scotland, Devon, Shropshire, etc.), Germany (Eifel), Sweden (Isle of Gotland), USSR (Estonia), Canada (Ontario), USA (Ohio). These collections were distributed around various institutions during and after his lifetime. Briefly, all Nicholson collections that have been located are in the following repositories (repository abbreviations used throughout the catalogue are indicated):

- (a) *Royal Scottish Museum, Edinburgh (RSM)*
 (1) Various Canadian corals and Bryozoa presented by Nicholson in 1875 and 1879 containing several type and figured specimens;
 (2) An important collection of 1000 slides presented in 1967 and 1968 by Dr D.N. Nicholson, grandson of

Henry Alleyne, containing several hundred type and figured corals, Bryozoa, and others.

- (b) *British Museum (Natural History), London (BMNH)*
(1) Several hundred Canadian corals, Bryozoa, etc., bought in 1875 and 1883, few of them apparently figured;
(2) Collection of 1400 graptolites bought in 1883, containing most of Nicholson's type and figured specimens;
(3) 300 thin sections of corals bought in 1875 and 1883;
(4) Nicholson's collection of type and figured stromatoporoids (1284 slides and several thousand hand specimens) was purchased in 1895, together with his handwritten catalogue;
(5) The Mrs R Gray collection of fossils from the Girvan area containing nearly all the specimens and slides figured by Nicholson and Etheridge in 1878-1880;
(6) The Hinde and Foord collections of Bryozoa may contain some material described by Nicholson;
(7) The McCormick, Jack, Daintree and Dunstan collections of Australian fossils contain material described by Nicholson and Etheridge in the 1880's.

(c) *Aberdeen University, Geology Department (AUGD)*
Aberdeen holds the collections left at Nicholson's death. There are many figured and type specimens from his early work in Canada and from his later researches on corals and Bryozoa. There are also collections of graptolites and stromatoporoids which seem to be the unfigured portions of the collections in the British Museum. A fire during the First World War damaged Nicholson's collection and it was first catalogued in the 1940's. A catalogue of type and figured specimens in the Aberdeen Palaeontology Collections has been published (Benton and Trewin, 1978b).

(d) *Glasgow Museum, Kelvingrove (KM)*

(e) *Dick Institute, Kilmarnock (DI)*

(f) *Hunterian Museum, Glasgow University (HM)*

These three institutions contain parts of the James Thomson collection of Scottish Carboniferous Rugosa, many of which were used by Thomson and Nicholson in their papers of 1876. A fire at the Dick Institute in the 1920's largely destroyed the Thomson collections (W.D.I. Rolfe, pers. comm. 1977). Dorothy Hill sorted out the Thomson material for her monograph (1938-41).

(g) *Geological Survey Museum, London (GSM)*

(h) *Geological Survey of Scotland Museum, Edinburgh (GSE)*

These institutions contain a few specimens collected by others which Nicholson described.

(i) *Sedgwick Museum, Cambridge (SM)*

The Harkness and Marr collections contain a few specimens described by Nicholson

(j) *Field Museum of Natural History, University of Chicago (UC)*

The U.P. James collection acquired in 1890 contains some corals and bryozoans from Ohio lent by him to Nicholson for description.

(k) *Geological Survey of Canada, Museum (GSC)*

A small number of Nicholson's Canadian specimens are preserved here. Some specimens may have been held at the University of Toronto, but a fire in 1890 destroyed all traces (Fritz, 1939).

Acknowledgements

My sincere thanks are due to many people. For permitting me to examine their collections in Britain and the United States, I am indebted to the following:
RSM (Dr C.D. Waterston, Mr W. Baird); BMNH (Dr B.R. Rosen, Mr R.F. Wise, Miss J.G. Darrell (Coelenterata and Bryozoa); Dr R.A. Fortey, Mr S.F. Morris (Arthropods and Graptolites); Mr E.F. Owen (Brachiopods); Dr R.P.S. Jefferies, Mr D.N. Lewis (Echinoderms and Trace Fossils); Dr M.K. Howarth, Dr N.J. Morris, Mr R.J. Cleevley (Molluscs); Mr S. Ware (Sponges and Worms); Miss L.M. Sheppard (Ostracods); Dr G.F. Elliott (Algae); Dr C.G. Adams (Protozoa)); AUGD (Dr N.H. Trewin); HM (Dr W.D.I. Rolfe); GSM (Dr A.W.A. Rushton); GSE (Dr R. Wilson); UC (Dr E.S. Richardson).

For helpful correspondence on various topics, I thank the following: Stromatoporoids (Dr C.W. Stearn (McGill University, Montreal), Dr J. St Jean (Chapel Hill, N. Carolina), Dr J.A. Fagerstrom (Lincoln, Nebraska)); Rugosa (Dr R.K. Jull (Windsor, Ontario), Dr D. Hill (Queensland), Dr W.D.I. Rolfe (Hunterian Museum, Glasgow), Dr E. Campbell (Glasgow Museum), Dr M.J. Bishop (Dick Institute, Kilmarnock), Dr A.G. Sleeman (Geol. Surv. Ireland)); Tabulata (Dr K. Oekentorp (Münster)); Bryozoa (Dr A.S. Horowitz (Bloomington, Indiana), Dr N. Spjeldnaes (Aarhus, Denmark)); Trilobites (Mr R. Tripp (BMNH), Mrs Y. Howells (Keele, Staffordshire), Dr A.W.A. Rushton (IGS, London)); Graptolites (Dr I. Strachan (Birmingham), Dr R.B. Rickards (Sedgwick Museum, Cambridge), Dr J. Hutt (Aberdeen)); Algae (Prof. A. Wood (Aberystwyth), Dr R. Riding (Cardiff)); General (Mr D.H. Collins (Royal Ontario Museum), Dr T.E. Bolton (Geological Survey of Canada, Ottawa), Mr A.E. Truckell (Dumfries), Mr P.J. Brand (GSE)).

For a grant towards my trip to America, I thank Aberdeen Endowments Trust, and for a grant towards my travels around Britain, I thank the Carnegie Trust. I am also grateful to the many anonymous drivers who gave me lifts between the various British institutions.

My special thanks are due to Dr Alan S. Horowitz for many lengthy letters concerning Nicholson type Bryozoa and for permission to use much of this information. Finally, I must thank Dr C.D. Waterston for his great help in preparing the manuscript for publication and especially for arranging the processing and funding of publication.

May 10th/77

My dear Sir,

This last I wrote to you about the Survey Lectureship. I have discovered that it is absolutely necessary to send in some testimonials, though I shall make these as few as possible.

Under these circumstances, I venture to hope that you may feel yourself justified in giving me an expression of your opinion as to my fitness for the post, & I shall feel very grateful if you think me myself able to do so.

Yours very truly
H. Alleyne Nicholson

Bibliography of the Scientific Papers and Monographs of H A Nicholson

NOTES ON THE BIBLIOGRAPHY

Sources and dates

The bibliography which follows contains all the papers and books written by Nicholson or Nicholson and co-authors. Titles were extracted from the *Royal Society Catalogue of Scientific Papers*, vol. 8 (1879), vol. 10 (1894) and vol. 17 (1921). During his lifetime, at least three (rather inaccurate and incomplete) lists of Nicholson's writings were published as follows:

List of the scientific works and memoirs by Henry Alleyne Nicholson. Toronto, 8vo., 1873.
Ditto. St. Andrews, 8vo., 1877, Pp. 12.
Ditto. Blackwood & Sons, Edinburgh, 8vo., 1881,
Pp 19 (123 titles).

Nicholson wrote 12 textbooks and 150 papers and monographs, 41 of which were co-authored. The exact date of publication of each is indicated as closely as I could establish. The dates of issue of most of his books and monographs have been ascertained from the records of Blackwoods (Edinburgh). Dates of publication of journal articles are for the separate parts and not for completion of the volume (i.e. not the title page date). Most journal parts bear a date to the nearest month, and this is given in the bibliography. However, some doubtful cases are indicated by a question mark (?). The Royal Society of Edinburgh and the British Association could not supply dates of publication for their journals in the late 19th century for example.

Papers are arranged, as far as possible, in order of publication, and each is assigned a number (1-167). Textbooks are numbered at the end of the bibliography (168-181). Each paper is given a letter designation (A, B, C...) following its year of publication. Papers which appeared over several months or years are listed as separate parts and cross-referenced.

Taxonomic implications

The question of dates is of taxonomic importance in some cases when Nicholson described new taxa in more than one publication in the same year. Some examples are:

- (1) Many of the new species described in 71 had already been described in 61-65, 69. However, 74 probably came after 71.
- (2) The specimens described in 80 (Nicholson) were largely described in 67 (Nicholson & Hinde). 67 is often given as published in 1875 since the journal volume bears the date "1875" on the title page. However, the part in question bears the date "April 1874".
- (3) 104 (Nicholson and Thomson) was probably published after 93-95, 97, 100 (Thomson and Nicholson) (see note after 104 in the bibliography).

(4) 127 (Nicholson) was published on September 25th, 1879. 128 (Nicholson and Etheridge) was published in September and October 1879. The descriptions of *Araeopora australis* n. gen. n. sp. and *Stenopora jackii* n. sp. were published in October and are usually attributed to Nicholson and Etheridge. However, an adequate description and figures are given in 127 and the names should, strictly, be attributed to Nicholson alone.

145. 1886C 'On some new or imperfectly-known species of stromatoporoids - Part I'. (see 148, 149, 161) *Ann. Mag. nat. Hist.*, London, (5), 17: 225-239, pls. 6-8 (Apr. 1886).
Actinostroma hebbornense n. sp. (S)
Actinostroma intertextum var. *suevicum* n. var. (S)
Stromatoporella ammoniensis n. sp. (S)
Stromatoporella arachnoidea n. sp. (S)
146. 1886D (H.A.N. & A.H. FOORD) 'On a new genus of Devonian corals, with descriptions of some species of the same'. *Ann. Mag. nat. Hist.*, London, (5), 17: 389-400, 518-523, 2 figs., pls. 15-17 (May, Jun. 1886).
Rhaphidopora n. gen. (T)
Rhaphidopora crinalis var. *aculeata* n. var. (T)
147. 1886E 'On *Desmidopora alveolaris*, Nich., a new genus and species of Silurian corals'. *Geol. Mag.*, London, Dec. 3, 3: 289-292, pl. 8 (Jul. 1886).
Desmidopora alveolaris n. gen. n. sp. (T)
148. 1886F 'On some new or imperfectly-known species of stromatoporoids - Part II'. (see 145, 149, 161) *Ann. Mag. nat. Hist.*, London, (5), 18: 8-22, 1 fig., pls. 1-2 (Jul. 1886).
Labechia ? Schmidti n. sp. (S)
Rosenella pachyphylla n. sp. (S)
149. 1887A 'On some new or imperfectly-known species of stromatoporoids - Part III'. (see 145, 148, 161) *Ann. Mag. nat. Hist.*, London, (5), 19: 1-17, pls. 1-3 (Jan. 1887).
Clathrodictyon Linnaeum n. sp. (S)
Clathrodictyon crassum n. sp. (S)
Clathrodictyon laxum n. sp. (S)
150. 1887B 'On *Hemiphyllum siluriense*, Tomes'. *Geol. Mag.*, London, Dec. 3, 4: 173-174 (Apr. 1887).
151. 1887C (H.A.N. & J.E. MARR) 'On the occurrence of a new fossiliferous horizon in the Ordovician series of the Lake District'. *Geol. Mag.*, London, Dec. 3, 4: 339-344, map (Aug. 1887).
152. 1888A 'On the structure and affinities of the genus *Parkeria*, Carp.'. *Ann. Mag. nat. Hist.*, London, (6), 1: 1-12, 1 fig., pl. 3 (Jan. 1888).
153. 1888B 'On certain anomalous organisms which are concerned in the formation of some of the Palaeozoic limestones'. *Geol. Mag.*, London, Dec. 3, 5: 15-24, 5 figs. (Jan. 1888).
Mitcheldeania gregaria n. sp. (A1)
Solenopora filiformis n. sp. (A1)
154. 1888C 'On the detection of mural pores in thin sections of the Favositidae'. *Geol. Mag.*, London, Dec. 3, 5: 104-110, 1 fig. (Mar. 1888).
155. 1888D 'On the structure of *Cleistopora (Michelinia) geometrica*, Edwards & Haime, sp.'. *Geol. Mag.*, London, Dec. 3, 5: 150-152, 1 fig. (Apr. 1888).
Cleistopora n. gen. (T)
156. 1888E (J.E. MARR & H.A.N.) 'The Stockdale shales.' *Q. Jl geol. Soc.*, London, 44: 654-732, 13 figs. pl. 16 (Nov. 1888).
Monograptus broughtonensis n. sp. (nom. nud.) (G)
Phacops elegans var. *glaber* n. var. (Tr)
Cheirurus bimucronatus var. *acanthodes* n. var. (Tr)
Cheirurus (Pseudosphaerexochus) morooides n. sp. (Tr)
Acidaspis erinaceus n. sp. (Tr)
Harpes judex n. sp. (Tr)
Harpes angustus n. sp. (Tr)
Ampyx (Rhaphophorus) aloniensis n. sp. (Tr)
Proetus brachypygus n. sp. (Tr)
Atrypa flexuosa n. sp. (Br)
157. 1889A 'A monograph of the British Stromatoporoids'. *Monogr. Palaeont. Soc., London*, pt. 2, 131-158, pls. 12-19 (Mar. 1889). (see 143, 162, 164)
Actinostroma irregularare n. sp. (S)
Actinostroma fenestratum n. sp. (S)
Clathrodictyon confertum n. sp. (S)

158. 1889B 'On the relations between the genera *Syringolites*, Hinde, and *Roemeria*, Edwards & Haime, and on the genus *Caliapora*, Schüller. *Geol. Mag.*, London, Dec. 3, 6: 433-438, 5 figs. (Oct. 1889).
159. 1890A 'Address on recent progress in palaeontology as regards invertebrate animals'. *Trans. Edinb. geol. Soc.*, 6: 53-69 (? Feb. 1890).
160. 1890B 'Notes on the palaeontology of Western Australia. 1. Stromatoporoidea'. *Geol. Mag.*, London, Dec. 3, 7: 193, pl. 8, figs. 7, 8 (May 1890).
161. 1891A 'On some new or imperfectly-known species of stromatoporoids - Part IV'. (see 145, 148, 149) *Ann. Mag. nat. Hist.*, London, (6), 7: 309-328, 2 figs. pls. 8-10 (Apr. 1891).
Stromatopora borealis n. sp. (S)
Actinostroma Tyrrelli n. sp. (S)
Actinostroma Whiteavestii n. sp. (S)
Actinostroma matutinum n. sp. (S)
162. 1891B 'A monograph of the British stromatoporoids'. *Monogr. Palaeont. Soc.*, London, pt. 3, 159-202, t.-figs. 18-27, pls. 20-25 (Apr. 1891). (see 143, 157, 164)
Lophiostroma n. gen. (S)
Labechia scabiosa n. sp. (S)
Labechia stylophora n. sp. (S)
Stromatopora concentrica var. *astrigera* n. var. (S)
Stromatopora Hüpschii var. *seposita* n. var. (S)
Stromatopora inaequalis n. sp. (S)
Stromatopora florigera n. sp. (S)
Stromatopora bücheliensis var. *digitata* n. var. (S)
Paraleloporella dartingtonensis var. *filitexta* n. var. (S)
163. 1891C (H.A.N. & J.E. MARR) 'The Cross Fell inlier'. *Q. Jl geol. Soc.*, London, 47: 500-512, pl. 17 (Nov. 1891).
164. 1892A 'A monograph of the British stromatoporoids'. *Monogr. Palaeont. Soc.*, London, pt. 4, 203-234, t.-figs. 28-33, pls. 26-29 (Nov. 1892). (see 143, 157, 162)
Stromatoporella Selwynii n. sp. (S)
Stromatoporella socialis n. sp. (S)
Stromatoporella solitaria n. sp. (S)
Hermatostroma episcopale n. sp. (S)
165. 1895A 'President's address' [On the permanence of ocean basins]. *Proc. R. phys. Soc. Edinb.*, 13: 1-30 (? Oct. 1895).
166. 1895B (H.A.N. & J.E. MARR) 'Notes on the phylogeny of the graptolites'. *Geol. Mag.*, London, Dec. 4, 2: 529-539, 9 figs., (Dec. 1895). Also in: *Rep. Brit. Ass. Advmt Sci.*, 1895, Trans. Sections, 1896, 695-696 (? Jun. 1896).
Tetragraptus inosculans n. sp. (nom. nud.) (G)
167. 1978 'Contributions to the study of the errant annelides of the older Palaeozoic rocks.' (full text of 54) *Publs. Dep. Geol. Min., Univ. Aberdeen*. No. 1, 17-47, 6 pls. (May 1978).
Arenicolites robustus n. sp. (nom. null.)
Planolites granosus n. sp. (nom. null.)
Planolites articulatus n. sp. (nom. null.)
Note: Introductory comments to 167 are given in Benton and Trewin (1978a).
- B: TEXTBOOKS
- 168: *A manual of zoology for the use of students, with a general introduction on the principles of zoology*. Part 1 (Invertebrates): 8vo., Robert Hardwicke, London, 1870, xvi, 322. 1st complete edition: 8vo., Blackwood & Sons, Edinburgh and London, 1870, xx, 622. Other editions: 2nd (1871), 3rd (1873) 4th (1875: xxi, 732), 5th (1878: xvi, 800), 6th (1880), 7th (1887: xvi, 939). Also reprints: Appleton & Co., New York, (1872, 1874, 1876, 1880, 1883, 1888).
169. *Syllabus of lectures on zoology, geology and palaeontology*. Edinburgh, 1870, 45. (not seen)
170. (*Advanced*) *textbook of zoology for junior students*. 8vo., Blackwood & Sons, Edinburgh and London, 1870, xii, 340, 153 figs. Other editions: 2nd (1871), 3rd (1878), 4th (1887), 5th (1894: xii, 567). Also reprints: D. Appleton & Co., New York (1871, 1872, 1873, 1874, 1875, 1879, 1880, 1883, 1884, 1887, 1888, 1893).
171. *An introductory textbook of zoology for the use of junior classes*. 8vo., Blackwood & Sons, Edinburgh and London, 1871 (not seen). Other editions: 2nd (1875), 3rd, 4th, 5th (1881: x, 232), 6th (1887: x, 250).
172. *A manual of palaeontology for the use of students, with a general introduction on the principles of palaeontology*. 8vo., Blackwood & Sons, Edinburgh and London, 1872, xvi, 601, 400 figs.
173. 2nd edition: 1879, 2 vols. (511, 531), 722 figs.
174. 3rd edition: 1889, 2 vols. (885, 739), 1419 figs. (vol. 2, vertebrates, by R. Lydekker).
Calostylis Andersoni n. sp. (R)
Callopora Foordi n. sp. (B)
Heliosphaerium elegantulum n. sp. [see also 105] (R)
175. *Introduction to the study of biology*. 8vo., Blackwood & Sons, Edinburgh and London, 1872, x, 163, 39 figs. Other reprints: D. Appleton & Co., New York (1880, 1888).
176. *Textbook of geology for schools and colleges*. 8vo., Blackwood & Sons, Edinburgh and London, 1872, xii, 266, 220 figs. Other editions: 2nd, 3rd, 4th (1886). Also reprints: D. Appleton & Co., New York (1872) Adam Stevenson & Co., Toronto (1872), and American Book Co., New York (1885, xii, 409).
177. *Examinations in natural history; being a progressive series of questions adapted to the author's Introductory and Advanced textbooks and the Students' manual of zoology*. 8vo., Blackwood & Sons, Edinburgh and London, 1872, 48.
178. *Outlines of natural history for beginners, being descriptions of a progressive series of zoological types*. 16mo., Blackwood & Sons, Edinburgh and London, 1873, 113, 46 figs. Other editions: 2nd (? 1876), 3rd (? 1884).
179. *The ancient life history of the earth, a comprehensive outline of the principles and leading facts of palaeontological science*. 8vo., Blackwood & Sons, Edinburgh and London, 1877, xviii, 407, 270 figs. Other reprints: Appleton & Co., New York (1878, 1882, 1885, 1892, 1896, 1897, 1898, 1899); A.L. Fowle (International Science Library), New York (1877, xvii, 407); Werner: International Science Library, Akron, Ohio (? 1876; xix, 428). There appear to have been many issues of this book in the United States, but all were reprints of the first edition.
180. *Synopsis of the classification of the animal kingdom*. 8vo., Blackwood & Sons, Edinburgh and London, 1882, vi, 131, 106 figs.
181. *Natural history, its rise and progress in Britain as developed in the life and labours of leading naturalists*. 8vo., W & R. Chambers, London and Edinburgh, 1886, viii, 312, 17 plates. Reprints: 1890, 1894, 1895.

Indexes to the Bibliography

SUBJECT INDEX

Algae: 113, 123, 140, 153
 Annelida, Inc. Sed: 36, 42, 48, 69, 71, 73, 80, 133.
 Biology (General): 43, 52, 89, 136
 Brachiopoda: 64, 71, 80, 156.
 Bryozoa: 57, 61-67, 69, 71, 74, 76-78, 80, 82, 84-85, 103, 107, 115, 123, 127-128, 132, 135, 138, 140, 141, 144.
 Catalogues/Bibliographies: 68, 91, 112, 120, 122, 125, 131.
 Crustacea: 66, 71, 80, 129.
 Echinodermata: 133.
 Education: 59, 108.
 Geology (General): 2-3, 38-39, 51, 81, 86, 109, 118, 165.
 Graptolites: 1, 4-13, 15, 17-18, 23-24, 29-30, 37, 39, 49, 80, 87, 99, 166.
 Lake District geology: 14, 16, 19-22, 25, 28, 31-32, 45-46, 50, 98, 110, 151, 156, 163.
 Medical and Man: 27, 34, 40, 44.
 Mollusca: 35, 67, 71, 80, 88.
 Palaeontology (General): 33, 47, 53, 56, 79, 96, 101-102, 114, 117, 159.
 Porifera: 133.
 Protozoa: 152.
 Rugosa: 57, 67, 70-71, 75, 80, 83-85, 90, 92-95, 97, 100, 103-105, 116, 123, 134.
 Stromatoporoidea: 55, 60, 71, 80, 85, 121, 143, 145, 148-149, 157, 160-162, 164.
 Tabulata: 58, 61-62, 67, 71-72, 80, 85, 103, 111, 113, 119, 123, 126-128, 130, 133-134, 137, 139, 146-147, 150, 154-155, 158.
 Trace Fossils: 26, 54, 67, 80, 133, 167.
 Trilobita: 71, 80, 123, 129, 133, 156.

GENERA ESTABLISHED BY NICHOLSON (type species in brackets):

Acrophyllum: 97 (*Clisiophyllum oneidaense* Billings 1859)
Actinostroma: 143 (*A. clathratum* Nicholson 1886).

<i>Araeopora</i> :	127	(<i>A. australis</i> Nicholson (& Etheridge) 1879).
<i>Ascodictyon</i> :	107	(<i>A. fusiforme</i> Nicholson & Etheridge 1877).
<i>Astraeophyllum</i> :	70	(<i>A. gracile</i> Nicholson & Hinde 1874).
<i>Azygograptus</i> :	87	(<i>A. lapworthi</i> Nicholson 1875).
<i>Botryllopora</i> :	65	(<i>B. socialis</i> Nicholson 1874).
<i>Bronteopsis</i> :	129	(<i>B. scotica</i> Etheridge & Nicholson 1879).
<i>Carcinophyllum</i> :	100	(<i>C. kirsoptiana</i> Thomson 1880).
<i>Caridolites</i> :	54	(<i>C. wilsoni</i> Etheridge, Woodward and Jones 1890).
<i>Carinopora</i> :	63	(<i>C. hindei</i> Nicholson 1874).
<i>Clathrodictyon</i> :	121	(<i>C. vesiculosum</i> Nicholson & Murie 1878).
<i>Cleistopora</i> :	155	(<i>Michelinia geometrica</i> Edwards & Haime 1851).
<i>Columnopora</i> :	72	(<i>C. cribiformis</i> Nicholson 1874).
<i>Conchicolites</i> :	36	(<i>C. gregarius</i> Nicholson 1872).
<i>Corynoides</i> :	5	(<i>C. calicularis</i> Nicholson 1867).
<i>Crepidophyllum</i> :	105	(<i>Diphyphyllum archiaci</i> Billings 1860).
<i>Cryptopora</i> :	63	(<i>C. mirabilis</i> Nicholson 1874).
<i>Ctenograptus</i> :	99	(<i>Dichograpsus annulatus</i> Nicholson 1869).
<i>Dawsonia</i> :	49	(<i>D. acuminata</i> Nicholson 1873).
<i>Desmidopora</i> :	147	(<i>D. alveolaris</i> Nicholson 1886).
<i>Dibunophyllum</i> :	97	(<i>D. muirheadi</i> Thomson & Nicholson 1876).
<i>Diplotrypa</i> :	127	(<i>Monticulipora petropolitana</i> Pander 1830).
<i>Duncanella</i> :	70	(<i>D. borealis</i> Nicholson 1874).
<i>Girvanella</i> :	123	(<i>G. problematica</i> Nicholson & Etheridge 1878).
<i>Helicograpsus</i> :	15	(<i>Graptolithus gracilis</i> Hall 1847).
<i>Hermatostroma</i> :	143	(<i>H. schlüteri</i> Nicholson 1886).

<i>Heterodictya:</i>	76	(<i>H. gigantea</i> Nicholson 1875).	<i>Taeniopora:</i>	64	(<i>T. exigua</i> Nicholson 1874).	
<i>Heterotrypa:</i>	127	(<i>Monticulipora mammulata</i> D'Orbigny 1850).	<i>Temnograptus:</i>	99	(<i>Dichograpsus multiplex</i> Nicholson 1868).	
<i>Koninckophyllum:</i>	95	(<i>K. magnificum</i> Thomson & Nicholson 1876).	<i>Tetraster:</i>	133	(<i>T. wyville-thomsoni</i> Etheridge & Nicholson 1880).	
<i>Lindströmia:</i>	105	(<i>L. columnaris</i> Nicholson & Thomson 1878).	<i>Thysanophyllum:</i>	105	(<i>T. orientale</i> Thomson 1880).	
<i>Lophiostroma:</i>	162	(<i>Labechia ? schmidti</i> Nicholson 1886).	<i>Trichograptus:</i>	99	(<i>Dichograpsus fragilis</i> Nicholson 1869).	
<i>Lyopora:</i>	123	(<i>Palaeopora ? favosa</i> M'Coy 1850).	<i>Trigonograptus:</i>	24	(<i>Retiolites ensiformis</i> Hall 1858).	
<i>Monilopora:</i>	126	(<i>Cladochonus crassa</i> M'Coy 1844).	SPECIES AND VARIETIES ESTABLISHED BY NICHOLSON:			
<i>Monotrypa:</i>	127	(<i>Chaetetes undulata</i> Nicholson 1875).	<i>acanthodes, Cheirurus bimucronatus:</i>	156		
<i>Nyctopora:</i>	127	(<i>N. billingsi</i> Nicholson 1879).	<i>aculeata, Rhaphidopora crinalis:</i>	146		
<i>Ortonia:</i>	42	(<i>O. conica</i> Nicholson 1872).	<i>acuminata, Dawsonia:</i>	49		
<i>Pachystroma:</i>	121	(<i>P. antiqua</i> Nicholson & Murie 1878).	<i>acuminatus, Diplograpsus:</i>	5

Catalogue of the Type and Figured Material of H.A. Nicholson

NOTES ON THE CATALOGUE

Identification

Specimens and slides were matched with Nicholson's original figures and descriptions and identity was established by the use of various criteria, such as:

1. Old labels indicating that the specimen had been previously identified as figured (BMNH, HM, GSM, GSE, UC). However, these labels were sometimes inaccurate and were certainly not present in all cases. Most figured specimens had not previously been noted as such.
2. Labels in Nicholson's handwriting (which was usually identifiable) (RSM, BMNH). Much of Nicholson's material has, however, been relabelled, and his original labels discarded. A figure containing examples of some labels and a letter in Nicholson's handwriting is given.
3. Evidence from accession books that specimens were donated or sold to the museum by Nicholson (or an agent acting for him) (RSM, BMNH).
4. Markings on specimens (such as old Indian ink rings round bryozoan colonies on larger corals) — possibly added by Nicholson as a guide for drawing.
5. Subjective evidence: An institution that contains a type series is likely to contain other figured specimens of the same kind. For example, the BMNH holds most of Nicholson's figured graptolites which have been identified to date, and it seems likely that others are also preserved there.

Various symbols are used throughout the catalogue to indicate the degree of certainty I have in my identifications of figures with specimens:

- no symbol: specimen and figure match exactly in shape, details and locality — definite.
- "?": correct general shape, details and locality in specimen — probable.
- "??": correct general shape with some difference, or from a different locality — possible (in the absence of a better specimen).
- "cf.": general resemblance, but almost certainly is not the figured specimen.

Some specimens have not been identified and may be either lost or not traced in the present work. 72.8% of Nicholson's figures have been identified with specimens.

It is worth noting that the standard of Nicholson's figures is generally good since he drew most of them and engraved several. His figure is usually a faithful rendering of the specimen or slide, but in some cases he may have combined several parts of a slide in order to produce a compact figure illustrating a range of internal structures. In these cases, one cannot definitely identify the exact part of a slide which he illustrated.

Conventions employed

1. Scientific names throughout the catalogue are those used by Nicholson. If he used various synonyms in his publications, cross-references are given. There is no attempt to list synonyms established after his time.
2. Publications in which Nicholson did not figure a specimen of a particular species may be listed first under each heading.
3. Stratigraphic periods (standard abbreviations) and localities are given briefly in the body of the catalogue according to Nicholson's original description. The published locality sometimes differs from the locality given on the specimen label, and this is usually indicated. No attempt is made to give detailed stratigraphic assignments because of the diverse range of localities and ages in question. The "Cambrian" and "Silurian" of 19th century geologists include the Ordovician, and these three terms are used here in their modern senses as far as possible. An index of localities is given at the end.
4. A list of all Nicholson material known to me (including collections which Nicholson used extensively, e.g. Gray) is given for the 330 new species established by Nicholson or by Nicholson and co-authors. If a lectotype has been established, this is also mentioned. A list of his 58 new genera, together with their type species, and a list of his 330 new species are given after the bibliography.

(Dev., Canada)

pl. 7, fig. 5 BMNH slide P6021 (329)
(Dev., Arkona)
6 BMNH slide P6021 (329c)?
(Dev., Arkona)

- 148, 10-11.
164, 202-4, pl. 26, fig. 1.
pl. 26, fig. 1 BMNH P6021 (Dev., Arkona)
1a BMNH slide P6021 (329)
(Dev., Arkona)
1b BMNH slide P6021 (329c)?
(Dev., Arkona)
- Nicholson material: CANADA, western Ontario (BMNH 56387, 56421, 56471; RSM 1875.1.3a), Arkona, Ontario, (BMNH H4523-6, P6021 (16), AUGD 1763 (4)), Manitowannis, Ontario (BMNH H4534), Port Colborne, Ontario (BMNH P5675 (3), P5676, P5677, P6245 (2)), Wainfleet, Ontario (AUGD 10666). Note: St. Jean (1977) has requested the International Commission on Zoological Nomenclature to designate BMNH P6021 (no. 329, slides 329a-f) as neotype in the absence of the originals of the 1873 figures. Benton (1978) gives a comment in support of this request.

Stromatopora hindei Nicholson 1874

- 60, 12-14, fig. 3a-c (Sil., Owen Sound). 67, 140.
71, 12, fig. 1 (= 60, fig. 3).
80, 43, 49-51, fig. 23 (= 60, fig. 3).
121, fig. 3 (= 60, fig. 3).
Nicholson material: CANADA, Manitowannis, Ontario (BMNH H4528).

Stromatopora hudsonica (Dawson 1879)

- 161, 312-3, pl. 8, figs. 1-3.
pl. 8, fig. 1 BMNH slide P5600 (293a)
(Sil., Cape Churchill)
2 BMNH slide P5600 (293)
(Sil., Cape Churchill)
3 BMNH slide P5593 (292)
(Sil., Cape Churchill)

Stromatopora hüpschii (Bargatzky 1881)

- 143, fig. 6A, B, pl. 10, figs. 8, 9.
fig. 6A BMNH slide P5879 (22) (Dev., Büchel)
B BMNH slide P5879 (22a) (Dev., Büchel)
pl. 10, fig. 8 BMNH slide P5488 (21)
(Dev., Büchel)
9 BMNH slide P5488 (21a)
(Dev., Büchel)
162, 176-81, figs. 20A, B (= 143, fig. 6A, B), 21D,
pl. 22, figs. 3-7.
fig. 21D BMNH slide P5879 (22) (Dev., Büchel)
pl. 22, fig. 3 BMNH slide P5883 (26a)
(Dev., Teignmouth)
4 BMNH slide P5883 (26)
(Dev., Teignmouth)
5 BMNH slide P5890 (33)
(Dev., Teignmouth)
6 BMNH slide P6273 (20)
(Dev., Büchel)
7 BMNH slide P5877 (19)
(Dev., Dartington)
174, fig. 119A, B (= 143, fig. 6A, B).

Stromatopora hüpschii var. *seposita* Nicholson 1891

- 162, 178, 181 (Dev., Teignmouth)
Nicholson material: ENGLAND, Teignmouth, Devon (BMNH P5892 (4), P5893 (5), P6327, P6328; AUGD 10082, slide 10082).

- Stromatopora inaequalis* Nicholson 1891
162, 181, pl. 24, figs. 11, 12.
 pl. 24, fig. 11 BMNH P5923 (98) ?
 (Dev., Teignmouth)
 12 BMNH slide P5923 (98) ?
 (Dev., Teignmouth)
- Nicholson material: ENGLAND, Teignmouth, Devon (BMNH P5923 (7), P5924 (2), P5925 (4)).
- Stromatopora mammillata* Nicholson 1873
55, 94-5, pl. 4, fig. 4.
 pl. 4, fig. 4 BMNH P5766 (Dev., Port Colborne)
71, 17, pl. 1, fig. 4 (= **55**, pl. 4, fig. 4).
121, pl. 1, fig. 10.
 pl. 1, fig. 10 BMNH P5766 (Dev., Port Colborne)
157, pl. 19, figs. 10-12.
 pl. 19, fig. 10 BMNH P6136 (Sil., Estonia)
 11 BMNH slide P6136 (248)
 (Sil., Estonia)
 12 BMNH slide P6136 (248a)
 (Sil., Estonia)
- Nicholson material: USSR, Estonia (BMNH P6136 (3)); CANADA, (BMNH P5764, P5765 (4), Port Colborne, Ontario (BMNH H4538-40, P5766). Note: Fagerstrom (1977) discusses the Canadian specimens figured by Nicholson, but does not designate a lectotype.
- Stromatopora nodulata* Nicholson 1875
85, 249-51, pl. 24, figs. 3, 3a, 3b.
 pl. 24, fig. 3b BMNH slide P5604 (310a) ?
 (Dev., Kelley's Island)
121, pl. 1, figs. 8-9.
 pl. 1, fig. 8, 9 BMNH slide P5604 (310c)
 (Dev., Kelley's Island)
161, 325-6, pl. 10, figs. 5-7 ('*Syringostroma nodulatum*')
 pl. 10, fig. 5 BMNH slide P5604 (310b)
 (Dev., Kelley's Island)
 6 BMNH slide P5604 (310c)
 (Dev., Kelley's Island)
 7 BMNH slide P5604
 (Dev., Kelley's Island)
- Nicholson material: USA, Kelley's Island, Ohio (BMNH P5604 (5)). Note: Nicholson's handwritten label on BMNH P5604 states 'parts of original specimen', and in his catalogue, he writes 'original specimen'.
- Stromatopora nulliporoides* Nicholson 1875
80, 78 (Dev., Arkona)
148, 8 (= *Stromatoporella curiosa*).
161, 310 (= *Coenostroma incrustans*). Nicholson material: CANADA, Western Ontario (RSM 1875.1.3), Arkona, Ontario (BMNH P6026 (15)). Note: In his handwritten catalogue, Nicholson described BMNH P6026 (336, a) as follows: 'This is the *Stromatopora nulliporoides* Nich. See Rep. Pal. Ontario 1875, p. 78.'
- Stromatopora ostiolata* Nicholson 1873
55, 90-2, pl. 4, fig. 1, 1a
 pl. 4, fig. 1, 1a BMNH H4521 ? (Sil., Guelph)
 Note: The figure could be a part of H4521.
71, pl. 1, figs. 1, 1a (= **55**, pl. 4, figs. 1, 1a).
80, 63-5.
121, pl. 2, figs. 1, 2.
 pl. 2, fig. 1, 2 BMNH slide P6006 (312)
 (Sil., Canada)
- 149**, 11-12, pl. 3, figs. 1-3 ('*Clathrodictyon ostiolata*').
 pl. 3, fig. 1 BMNH slide P6006 (312)
 (Sil., Guelph)
 2 BMNH slide P6006 (312a)
 (Sil., Guelph)
 3 BMNH P6006 (Sil., Guelph)
- Nicholson material: CANADA, Durham, Ontario (BMNH P6015 (3), P6016 (8)), Guelph, Ontario (BMNH H4521, P6006 (16)), Lake Manitoba, Manitoba (BMNH P6009 (7)).
- Stromatopora perforata* Nicholson 1874
60, 10-12, fig. 2.
 fig. 2a, b, c BMNH P5582 (Dev., Port Colborne)
71, 15-16, fig. 3 (= **60**, fig. 2).
121, 219-20, fig. 4 (= **60**, fig. 2) (= *Caunopora*). Nicholson material: CANADA, Port Colborne, Ontario (BMNH P5582 (5)). Note: BMNH P5582 (3 specimens and 2 slides) are labelled '*Caunopora perforata*, type specimens' in Nicholson's hand.
- Stromatopora ponderosa* Nicholson 1875
85, 246-7, pl. 24, fig. 4-4b (Dev., Kelley's Island). Note: I have found no Nicholson material of this species.
- Stromatopora rugosa* (Hall 1847).
121, fig. 1 (copy).
- Stromatopora striatella* D'Orbigny 1849
72, 145 (Sil., Thorold, Rockwood)
80, 49. (Sil., Thorold, Rockwood)
121, pl. 1, figs. 4-7. (Sil., Gotland)
- Stromatopora substriatella* Nicholson 1875
85, 248-9, pl. 24, figs. 5, 5a (Dev., Marblehead). Note: I have found no Nicholson material of this species.
- Stromatopora tuberculata* Nicholson 1873
55, 92-3, pl. 4, fig. 2.
 pl. 4, fig. 2 BMNH P5627 (Dev., Ridgeway/Port Colborne)
 2a BMNH P5627 (Dev., Ridgeway/Port Colborne)
60, 8-10, fig. 1.
 fig. 1a BMNH 56463 (Dev., Port Colborne)
 1b BMNH 56463 (Dev., Port Colborne)
 1c BMNH 56463 (Dev., Port Colborne)
71, 14-15, fig. 2, (= **60**, fig. 1), pl. 1, figs. 2, 2a (= **55**, pl. 4, figs. 2, 2a).
121, fig. 2, (= **60**, fig. 1), pl. 1, figs. 1-3.
 pl. 1, fig. 2 RSM slide 1968.15.31 (Dev., Jarvis)
 3 RSM slide 1968.15.36 (Dev., Jarvis)
149, 15-16, pl. 3, figs. 9-11 ('*Stromatoporella* (?) *tuberculata*').
 pl. 3, fig. 9 BMNH slide P6024 (332)
 (Dev., Ontario)
 10 BMNH slide P6024 (332b)
 (Dev., Ontario)
 11 BMNH slide P6024 (332)
 (Dev., Ontario)
- Nicholson material: CANADA (RSM slides 1968.15.31-36), Western Ontario (RSM 1875.1.1, 1875.1.2 (2); BMNH 56472), Port Colborne, Ontario (BMNH 56463, H4553-5, P5625, P5626, P6024 (13), P6025 (7); AUGD 1714, 10083 (2), 10118 (2)), Ridgeway/Port Colborne, Ontario (BMNH P5627).

Stromatopora typica Rosen 1867

- 143, pl. 1, fig. 3, pl. 5, figs. 14, 15.
pl. 1, fig. 3 BMNH slide P5900 (49)
(Sil., Ironbridge)
pl. 5, fig. 14 BMNH slide P5900 (49)
(Sil., Ironbridge)
15 BMNH slide P5900 (49a)
(Sil., Ironbridge)
- 162, 169-74, pl. 21, figs. 4-11, pl. 22, figs. 1-2.
pl. 21, fig. 4-7 BMNH P5899 (48)
(Sil., Ironbridge)
8 BMNH P5566 (Sil., Dudley)
9 BMNH slide P5867 (13) ?
(Sil., Ironbridge)
10 BMNH slide P5867 (13b) ?
(Sil., Ironbridge)
11 BMNH P5901 (50)
(Sil., Northern Germany)
pl. 22, fig. 1 BMNH slide P5900 (49) ?
(Sil., Ironbridge)
2 BMNH slide P5561 (53)
(Sil., Ironbridge)

Note: P5561 is the figured slide, but its label reads 'Benthall' but given as 'Ironbridge' in Nicholson's M.S. catalogue.

Stromatoporella sp. Nicholson 1886

- 143, pl. 11, figs. 3, 4.
pl. 11, fig 3 BMNH slide P6096 (442)
(Dev., Gerolstein)
4 BMNH slide P6096 (442a)
(Dev., Gerolstein)

Stromatoporella arachnoidea Nicholson 1886

- 145, 237-8, pl. 8, figs. 1, 2.
pl. 8, fig. 1 BMNH slide P6063 (384a)
(Dev., Büchel)
2 BMNH slide P6063 (384)
(Dev., Büchel)

Nicholson material: GERMANY, Büchel, Eifel (BMNH P6063 (6)), Gees, Gerolstein, Eifel (BMNH P6064 (5)).

Stromatoporella curiosa (Bargatzky 1881)

- 143, pl. 2, fig. 14 (*Stromatoporella sp.* (cf. *S. curiosa*)).
pl. 2, fig. 14 BMNH P5680/P5682 ?
(Dev., Büchel)
- 148, 8-9, pl. 1, figs. 1-3.
pl. 1, fig. 1 BMNH P6157 (Dev., Büchel)
2 BMNH slide P6052 (373)
(Dev., Büchel)
3 BMNH slide P6052 (373a)
(Dev., Büchel)
- 164, 213-5, pl. 28, figs. 1-3.
pl. 28, fig. 1 BMNH P6157 (Dev., Büchel)
2 BMNH slide P6052 (373)
(Dev., Büchel)
3 BMNH slide P6052 (373a)
(Dev., Büchel)

Stromatoporella damnoniensis Nicholson 1886

- 145, 237, pl. 8, figs. 3, 4.
pl. 8, fig. 3 BMNH slide P6042 (355b)
(Dev., Teignmouth)
4 BMNH slide P6042 (355)
(Dev., Teignmouth)

164, 207-8, pl. 27, figs. 8, 9 (= 145, pl. 8, figs. 3, 4).
Nicholson material: ENGLAND, Teignmouth, Devon, (BMNH P5732, P5733, P6042 (7); AUGD 1840);

GERMANY, Gerolstein, Eifel (BMNH P5735 (3)), Sötenich, Eifel (BMNH P5734 (2), P5736 (4), P6091 (4)).

Stromatoporella eifelensis Nicholson 1886

- 143, 29, 37, 47, 51, 57, 94, fig. 7, pl. 2, figs. 9, 10, pl. 4 fig. 2; pl. 7, figs. 3, 4; pl. 11, figs. 1, 2.
fig. 7 BMNH slide P6037 (350a) (Dev., Gerolstein) (*S. solitaria* q.v.)
pl. 2, fig. 9 BMNH slide P4464 ('tang.')
(Dev., Gerolstein)
10 BMNH slide P4464 ('long.')
(Dev., Gerolstein)
pl. 4, fig. 2 BMNH P6176 (Dev., Gerolstein)
pl. 7, fig. 3 BMNH slide P5509 (342a) ?
(Dev., Gerolstein)
4 BMNH slide P5509 (342b) ?
(Dev., Gerolstein)

159, 193, pl. 8, figs. 7a-c.

- pl. 8, fig. 7a BMNH P4966 (Dev., Rough Range)
b BMNH P4966 (Dev., Rough Range)
c BMNH slide P4464
(Dev., Rough Range)

Note: fig. 7b is not 'nat. size', but nearer $\frac{2}{3}$

164, 208-10, pl. 27, figs. 1-3.

- pl. 27, fig. 1 BMNH P6033 (343)
(Dev., Gerolstein)
2 BMNH slide P6033 (343a)
(Dev., Gerolstein)
3 BMNH slide P6033 (343b)
(Dev., Gerolstein)

Nicholson material: GERMANY, Auberg, Gerolstein, Eifel (BMNH P5503 (2), P5509 (4)), Gees, Gerolstein, Eifel (BMNH P5502 (3)), Gerolstein, Eifel (BMNH P4464 (2), P5501 (3), P5504, P5505, P5506, P5507 (3), P5508, P5510 (8), P5648, P5854, P6033 (7), P6176, P6205 (7); AUGD 1874 (13), 10116 (6), slides 04514-5; AUSTRALIA, Rough Range, Western Australia (BMNH P4464, P4966).

Stromatoporella granulata (Nicholson 1873) (see *Stromatopora granulata*)

Stromatoporella incrassata (Hall & Whitfield 1873)

- 143, pl. 3, fig. 6 (copy).

Stromatoporella laminatum (Bargatzky 1881)

- 143, 93, pl. 10, figs. 1-4; pl. 11, fig. 10.
pl. 10, fig. 1 BMNH slide P6055 (376a)
(Dev., Büchel)
2 BMNH slide P6055 (376b)
(Dev., Büchel)
3 BMNH slide P6294/6 ?
(Dev., Büchel)
4 BMNH P6294/6 ?
(Dev., Büchel)
pl. 11, fig. 10 BMNH slide P6056 (377b)
(Dev., Büchel)

- 145, 234-5, pl. 7, figs. 9, 10.
 pl. 7, fig. 9 BMNH slide P6056 (377)
 (Dev., Büchel)
 10 BMNH slide P6055 (376b)
 (Dev., Büchel)
- Stromatoporella selwynii* Nicholson 1892
 164, 205-6, pl. 26, figs. 2-4.
 pl. 26, fig. 2 BMNH P6022 (330)
 (Dev., Port Colborne)
 3 BMNH slide P6022 (330a)
 (Dev., Port Colborne)
 4 BMNH slide P6022 (330)
 (Dev., Port Colborne)
- Also 143, pl. 1, fig. 14 ('*S. granulata*').
 Nicholson material: CANADA, Port Colborne, Ontario (BMNH P6022(5), P6023 (3)).
 Note: See St. Jean (1977) for discussion in relation to type specimens of *S. granulata*.
- Stromatoporella socialis* Nicholson 1892
 164, 206-7, pl. 26, figs. 5-7.
 pl. 26, fig. 5 BMNH slide P5699 (362a)
 (Dev., Teignmouth)
 6 BMNH slide P6043 (358a)
 (Dev., Teignmouth)
 7 BMNH slide P6043 (358)
 (Dev., Teignmouth)
- Nicholson material: ENGLAND, Bishopsteignton, Devon, (BMNH P5695), Dartington, Devon (BMNH P5694, P5702 (2)), Teignmouth, Devon (BMNH P5693 (2), P5696 (4), P5697 (5), P5698 (2), P5699 (7), P5700 (6), P5701 (4), P5703 (3), P5704 (3), P5705 (2), P5706 (2), P5707 (2), P6043 (10), P6044 (7), P6045 (5), P6046 (8), P6192; AUGD 1780 (2)); GERMANY, Gerolstein, Eifel (BMNH P6047 (3), P6048 (6), P6049 (12), P6050 (3), P6092 (3), P6093 (4), P6095 (8), P6096 (3)).
- Stromatoporella solitaria* Nicholson 1892
 164, 210-3, fig. 28, pl. 27, figs. 4-7.
 fig. 28 = fig. 7 (143) ('*S. eifelensis*')
 pl. 27, fig. 4 BMNH P6039 (352) (Dev., Gerolstein)
 5 BMNH slide P6035 (348)

Nicholson material: SCOTLAND, Gateside, Ayrshire
(KM.T 1033a, b).
Note: pl. 2, fig. 1 = 97, pl. 25, fig. 1 ('*Dibunophyllum* sp.')
LECTOTYPE: KM.T 1033a, b: Hill 1938: 72.
- Diphyphyllum archiaci* Billings 1860 (see *Crepidophyllum archiaci*)
- Diphyphyllum arundinaceum* Billings 1859
71, 32-3, pl. 6, fig. 1.
pl. 6, fig. 1 AUGD 10661a (Dev., Wainfleet/Walpole)
- Diphyphyllum concinnum* Lonsdale 1845
94, pl. 8, fig. 1, 1A.
pl. 8, fig. 1A KM.T 2001 (Carb., Bathgate)
Note: specimen figured in pl. 8, fig. 1 apparently lost;
Hill 1940: 175.
- Diphyphyllum gracile* M'Coy 1851
71, 33-4, pl. 5, fig. 5.
pl. 5, fig. 5 AUGD 10660a (Dev., Ridgeway)
- Diphyphyllum stramineum* Billings 1859
71, 33, pl. 5, fig. 6.
pl. 5, fig. 6 AUGD 10662a (Dev., Wainfleet)
- Duncanella borealis* Nicholson 1874
70, 333-5, figs. a-e
fig. b RSM slide 1968.15.40 (Sil., Indiana)
c AUGD slide 01554 (Sil., Indiana)
174, 267, fig. 142-D.
fig. 142C AUGD slide 01554 (Sil., North America)
D RSM slide 1968.15.40
(Sil., North America)
Nicholson material: USA, Indiana (AUGD slides 01554-8),
Waldron, Indiana (RSM slide 1968.15.40).
Note: AUGD 310 and 446 from the type locality are
missing; UC 1964, listed in a catalogue of the U.P.
James collection at the Field Museum as 'type', is also
apparently lost.
- Endophyllum oehlerti* Nicholson 1881
134, 14-17, fig. 1.
fig. 1A RSM slide 1968.15.164 (Dev., Montjean)
B RSM slide 1968.15.165 (Dev., Montjean)
Nicholson material: FRANCE, Montjean, Gallois
(RSM slides 1968.15.164-165; AUGD 672).
- Eridophyllum simcoense* Billings 1859
71, 34-5, fig. 7c, pl. 6, fig. 5.
fig. 7c AUGD 638a (Dev., ?Port Colborne)
pl. 6, fig. 5 AUGD 638a (Dev., ?Port Colborne)
85, 228. (Dev., Ohio)
- Eridophyllum strictum* Edwards & Haime 1851
80, 74 (Dev., Ontario). 85, 238-9 (Dev., Ohio).
- Eridophyllum verneuillanum* Edwards & Haime 1851
71, 35, fig. 7a, b.
fig. 7a AUGD 729 ? (Dev., Ontario)
b AUGD 729 ? (Dev., Ontario)
- Favistella (Columnaria) calicina* Nicholson 1875 (see
Columnaria calicina)
- Favistella stellata* Hall 1847 (? = *Columnaria alveolata*)
80, 22-4 (Ord., Ontario). 84, 279; 89. 85, 185-6
(Ord., Ohio).
- Heliophyllum canadense* Billings 1859
71, 25, pl. 5, fig. 1.
pl. 5, fig. 1 AUGD 681a (Dev., Port Colborne)
- Heliophyllum cayugaense* (Billings 1859)
71, 26, pl. 5, fig. 2.
pl. 5, fig. 2 AUGD 635a ? (Dev., Port Colborne)
- Heliophyllum colbornense* Nicholson 1873
57, 143 (Dev., Ontario)
71, 25-6, pl. 5, fig. 4.
pl. 5, fig. 4 AUGD 646a ? (Dev., Port Colborne)
Nicholson material: CANADA, Port Colborne, Ontario
(AUGD 646 (6)).
- Heliophyllum colligatum* Billings 1859
71, 28, pl. 5, fig. 3.
pl. 5, fig. 3 AUGD 654a ? (Dev., Walpole)
3a AUGD 654a ? (Dev., Walpole)
- Heliophyllum elegantulum* Nicholson & Thomson 1876
105, 150 (= *H. subcaespitosum* Nicholson 1874 (partim)).
116, 54.
174, 289-90, fig. 168A, B.
fig. 168B AUGD 566 ? (Dev., North America)
Nicholson material: North America (AUGD 566 (20));
CANADA, Arkona, Ontario (RSM slide 1968.15.108).
- Heliophyllum eriense* Billings 1859
71, 28. (Dev., Ontario)
- Heliophyllum exiguum* Billings 1860
71, 29, fig. 6.
fig. 6a, b AUGD 786a ? (Dev., Ontario)
179, fig. 82 (= 71, fig. 6).
- Heliophyllum halli* Edwards & Haime 1850
71, 26-7, fig. 4.
fig. 4 AUGD 665 (Dev., Arkona)
83, pl. 17, figs. 1-6.
pl. 17, fig. 4 AUGD 583a (Dev., ?North America)
116, 45-8, figs. A, B.
fig. A AUGD slide 01562 (Dev., ?North America)
174, 290, fig. 169 (= 71, fig. 4).
- Heliophyllum proliferum* Nicholson 1874
62, 59-60 (Dev., Ontario). 71, 27-8 (Dev., Ontario).

Notes: I have found no Nicholson material of this species.

- Heliophyllum subcaespitosum* Nicholson 1874
62, 58-9, pl. 4, fig. 9. (Dev., Arkona)
71, 27, fig. 5 (= 62, pl. 4, fig. 9).
83, pl. 17, figs. 7, 8. (Dev., North America)
105, 149-50: subdivided into 1) *Crepidophyllum* n. gen.
(q.v.)
2) *H. elegantulum* n. sp.
(q.v.)

Nicholson material: CANADA, Western Ontario (RSM 1875.1.12 (4)), Arkona, Ontario (RSM slides 1968.15.138-144; AUGD 700(18), 732(37)); USA, Canandaigua, New York (RSM slides 1968.15.135-7; AUGD 728).

- Koninckophyllum interruptum* Thomson & Nicholson 1876
95, pl. 12, fig. 3. (Carb., Brockley)
104, 121-2, pl. 1, fig. 3 (= 95, pl. 12, fig. 3).
Note: figured specimen apparently lost, Hill 1939: 93. I have not found any Nicholson material of this species.

- Koninckophyllum lindstroemi* Thomson & Nicholson 1876
95, pl. 12, fig. 4.
pl. 12, fig. 4 HM C4439 (Carb., Brockley)
104, 122, pl. 1, fig. 4 (= 95, pl. 12, fig. 4).
Nicholson material: SCOTLAND, Brockley, Lesmehagow, Lanark (HM C4439: a specimen stuck on a slide as if ready for grinding).
LECTOTYPE: HM C4439: Hill 1939: 90.

- Koninckophyllum magnificum* Thomson & Nicholson 1876
94, pl. 8, fig. 8-8B (Carb., ?Ayrshire)
95, pl. 12, fig. 2.
pl. 12, fig. 2 KM.T 1037 (Carb., Charleston)
2A KM.T 1037 (Carb., Charleston)
104, 121, pl. 1, fig. 2 (= 95, pl. 12, fig. 2).
Nicholson material: SCOTLAND, Charleston, Fife (KM.T 1037; AUGD 253-9, 260 (2), 261-2, 390 (4), 421 (5), 422 (7), 423, 8003 (86)).
LECTOTYPE: KM.T 1037: Hill 1939: 89.

- Koninckophyllum proliferum* Thomson & Nicholson 1876
95, pl. 12, fig. 1.
pl. 12, fig. 1 HM C4630 (Carb., Bathgate)
104, 124, pl. 1, fig. 1 (= 95, pl. 12, fig. 1).
Nicholson material: SCOTLAND, Bathgate, West Lothian (HM C4630).
LECTOTYPE: HM C4630: Hill 1940: 174.

- Koninckophyllum radiatum* Thomson & Nicholson 1876
95, pl. 12, fig. 5.
pl. 12, fig. 5 slide from HM C4440 (Carb., Charleston)
104, 123, pl. 1, fig. 5 (= 95, pl. 12, fig. 5).
Nicholson material: SCOTLAND, Charleston, Fife (HM C 4440).
LECTOTYPE: HM C4440: Hill 1939: 90.

- Koninckophyllum retiforme* Thomson & Nicholson 1876
95, pl. 12, fig. 6, 6A (Carb., Brockley)
104, pl. 1, fig. 6 (= 95, pl. 12, fig. 6).
Note: figured specimen apparently lost, Hill 1939: 90.
I have seen no Nicholson material of this species.

- Lindstroemia columnaris* Nicholson & Thomson 1876
105, 150. (Dev., North America)

- 123, 84, fig. 4b, b'.
fig. 4b RSM slide 1968.15.43
(Dev., North America)

Nicholson material: USA, Erie (RSM slides 1968.15.41-43).

Note: This species was not described in 1876 or 1878. But, as Lang *et al* (1940: 77) state, '*Lindstroemia columnaris* is not a *nomen nudum* since the diagnosis of the genus covers the species also'.

- Lindstroemia (Cyathaxonia) dalmani* Edwards & Haime

8 AUGD slide 10152 (2) (Sil., Dudley)
- Nicholson material: ENGLAND, Dudley, Staffordshire (AUGD 10152 (3), slides 10152 (1-5), 10152a (1-2), b (1-2), c).
- Note: Nicholson first mentioned this form under the name *Labechia alveolaris* in 143: 60, 85, but never described it as a stromatoporoid. Stel and Oekentorp (1976, p. 173) confirm that *Desmidopora* is a tabulate coral and suggest that it should be maintained as a sub-generic division within *Paleofavosites* Twenhofel, 1914. However, Powell and Scrutton (1978, p. 312) are not

- convinced that *Desmidopora* is a paleofavositid and conclusions must await a redescription of the type material by Oekentorp and Stel ('Fossil Cnidaria', 6(2): 9 (Nov. 1977)).
- Dictyostroma undulata* Nicholson 1875
85, 254-5, pl. 24, fig. 6.

 fig. 70 BMNH H3054/P1966/56615 ? (locality ?)

- Ptilograptus* sp. Hall 1865
12, 238-41, figs. 4, 5. (Sil., Bow Bridge)
37, 126-7, fig. 66 (copy).

- Ptilograptus anglicus* Nicholson 1868
12, 239-40, figs. 1-3.
 fig. 1-3 BMNH 38566 ??
 (Sil., Bow Bridge; label reads Leintwardine)
 Nicholson material: ENGLAND, Bow Brig, Ludlow,
 Shropshire (BMNH P2071), Leintwardine, Hereford
 (BMNH 38566).

GRAPTOLITHINA: GRAPTOLOIDEA

- Graptogonophores* ('ovarian vesicles of graptolites')
 Nicholson wrote several papers on supposed egg-cases
 of graptolites (4, 5, 6, 7, 9, 11, 37, 49). He named them
Dawsonia in 1873. Some of them may be small
 brachiopods.
 The name *Dawsonia* was misused by U.P. James for a
 trace fossil (*Lockeia*), but, being carbonaceous, it cannot

- be synonymous with the latter (Häntzschel, 1965:53; 1975:W79; Osgood, 1970:308-312).
- 4, pl. 17, figs. 1, 2, 4, 5.

 3 BMNH Q31 (Ord., Peelwyke)
99, 248, pl. 9, fig. 1 (= **10**, pl. 6, fig. 1) ('*Temnograptus multiplex*').
 Nicholson material: ENGLAND, Peelwyke, Cumberland (BMNH Q31).
 Note: Strachan 1971: 11 refers to Q31 as a syntype.
- Dichograptus octobrachiatus* (Hall 1858)
9, pl. 3, fig. 6.
 pl. 3, fig. 6 BMNH P1917 ?? (locality ?)
10, 129, pl. 5, figs. 1 (copy), 2.
 pl. 5, fig. 2 BMNH P1923 ? (Ord., Muirhouse)
37, fig. 33 = fig. 50 (copy).
- Dichograptus reticulatus* Nicholson 1868
10, 143, pl. 5, figs. 3-5.
 pl. 5, fig. 4, 5 BMNH Q29 (Ord., Scale Hill ?)
99, 248, pl. 9, fig. 3 (= **10**, pl. 5, fig. 4) ('*Schizograptus reticulatus*').
 Nicholson material: ENGLAND, Scale Hill, Cumberland (BMNH Q29 (rereg. from P1915)).
 LECTOTYPE: BMNH Q29: Strachan 1971: 11.
- Dicranograptus ramosus* (Hall 1847)
37, fig. 60A-C.
 fig. 60B, C BMNH P1920 (Ord., Britain/N.America)
- Didymograptus affinis* Nicholson 1869
23, 224 (mention only).
24, 240-1, pl. 11, fig. 20.
 pl. 11, fig. 20 BMNH Q3108 (Ord., Cumberland)
26, 498 (mention).
29, 343, fig. 4.
 fig. 4a, b BMNH Q3108 (Ord., Skiddaw slates)
 Nicholson material: ENGLAND, Eggbeck, Westmorland (BMNH P1858), Outerside, Cumberland (BMNH P1859 (rereg. as Q2)), 'Skiddaw slates' (BMNH Q3108).
 NEOTYPE: Elles & Wood selected the specimen which they figured as pl. 2, fig. 16 (= Q3108) as the type, on the grounds that Nicholson's original specimen was unknown (Strachan 1971: 15).
- Didymograptus anceps* Nicholson 1867
5, 110, pl. 7, figs. 18-20.
 pl. 7, fig. 19 BMNH Q3047 (Sil., Dobb's Linn)
 20, 20 BMNH Q3065 (Sil., Dobb's Linn)
- 29,** 351-3, fig. 8b, c, pl. 7, fig. 5-5b.
 fig. 8b BMNH H1649 ? (Sil., Dobb's Linn)
 c BMNH Q3047 ? (Sil., Dobb's Linn)
 pl. 7, fig. 5a BMNH Q3047 ? (Sil., Dobb's Linn)
 b BMNH H1649 ? (Sil., Dobb's Linn)
37, fig. 24b, c (= **29**, fig. 8b, c).
 Nicholson material: SCOTLAND, Dobb's Linn, Dumfriesshire (BMNH P1869 (11), H1647-50, H2727, Q3047, Q3065, Q3070; AUGD 2066).
 LECTOTYPE: Q3047: Toghill 1970: 10.
 PARALECTOTYPE: Q3065: Toghill 1970: 10.
 Note: Toghill (1970: 10) suggests that BMNH Q3047 or Q3065 could be the original of **5**, pl. 7, fig. 19, 20.
- Didymograptus bifidus* (Hall 1865)
10, 136 (Ord., Skiddaw slates)
29, 346-7, fig. 7a-e.
 fig. 7a, b BMNH H2739 ? (Ord., Skiddaw slates)
- Didymograptus caduceus* Salter 1853
10, 133-4. (Ord., Skiddaw slates)
29, 348 (= *Tetragraptus serra*).
- Didymograptus divaricatus* (Hall 1859)
29, 350-1, fig. 8d; pl. 7, fig. 4.
 fig. 8d BMNH H2740 (Sil., Glenkiln Burn)
 pl. 7, fig. 4, a BMNH H2740 (Sil., Glenkiln Burn)
37, fig. 24d (= **29**, fig. 8d), fig. 30.
 fig. 30 BMNH H2740 (locality ?)
- Didymograptus extensus* (Hall 1858)
29, 341-2, fig. 1b, pl. 7, fig. 2.
 fig. 1b BMNH P1839 ? (Ord., Outerside)
 pl. 7, fig. 2, a BMNH Q3110 (Ord., Outerside)
- Didymograptus fasciculatus* Nicholson 1869
24, 241-2, pl. 11, figs. 21, 22.
 pl. 11, fig. 21, 22 BMNH Q4 (Ord., Cumberland)
29, 344-5, fig. 5a, b.
 fig. 5b BMNH P1864 ? (Ord., Cumberland)
 Nicholson material: SCOTLAND, Dobb's Linn, Dumfrieshire (BMNH P1866 (23)); ENGLAND, Eggbeck, Cumberland (BMNH P1862), Ellergill, Cumberland (BMNH P1864 (3), ? Q4) Thornship Beck, Shap, Cumberland (BMNH P1863, P1865).
 Note: Strachan 1971: 20 comments: 'Nicholson described the species as having two branches but noted (1870) that this was a restoration. His original specimens have not been positively identified.' This species was made the type species of *Nicholsonograptus* Bouček and Přibyl (1951), and was redescribed in detail by Skevington (1966).
- Didymograptus flaccidus* (Hall 1865)
5, 110-1, pl. 7, figs. 1-3.
 pl. 7, fig. 1, 1a BMNH P1849 ? (Sil., Dobb's Linn - label reads Hartfell)
 3 BMNH Q3066 (Sil., Dobb's Linn)
9, pl. 3, fig. 14 (= **5**, pl. 7, fig. 1).
29, 353-4, fig. 8a (cf. **5**, pl. 7, fig. 3), pl. 7, fig. 6-6c. (Sil., Dobb's Linn)
37, fig. 24a (= **29**, fig. 8a).
- Didymograptus geminus* (Hisinger 1840)
10, 134-5, pl. 5, figs. 8-10.
 pl. 5, fig. 8, 9 BMNH Q7 (Ord., Skiddaw slates)
 10 BMNH P1856 ? (Ord., Skiddaw slates)
29, 345-6, fig. 6.

- Diplograptus angustifolius* (Hall 1859)
 18, 525-6, pl. 19, figs. 8, 9. (Sil., Skelgill Beck)
- Diplograptus antennarius* (Hall 1865) (see *Climacograptus antennarius*)
- Diplograptus armatus* Nicholson 1869
 24, 234-5, pl. 11, fig. 8.
 pl. 11, fig. 8 BMNH Q17 (Ord., Thornship Beck)
 Nicholson material: ENGLAND, Thornship Beck,
 Westmorland (BMNH P2020 (2), Q17 (rereg. from
 H2424)).
 HOLOTYPE: Q17, 'Nicholson's sole figured specimen':
 Strachan 1971: 27.
- Diplograptus bicornis* Hall 1847 (see *Climacograptus bicornis*)
- Diplograptus bimucronatus* Nicholson 1869
 24, 236, pl. 11, fig. 12.
 pl. 11, fig. 12 BMNH P1877 ?
 (Sil., Glenkiln Burn)
 12' BMNH P1877 ?
 (Sil., Glenkiln Burn)
- Nicholson material: SCOTLAND, Glenkiln Burn,
 Dumfriesshire (BMNH 56610 (5), P1877 (18)).
 Note: 'type specimen not yet designated', Strachan
 1971: 45.

 P2044 (4), H307-8 Q104).

Graptolites fimbriatus Nicholson 1868

- 10, 299 (mention only). 16, 62 (mention only).
 18, 536-7, pl. 20, figs. 3-5. (Sil., Skelgill)
 Nicholson material: SCOTLAND, Dobb's Linn,
 Dumfriesshire (AUGD 2081, 2520), Duffkinnel,
 Dumfriesshire (BMNH P2029 (2)), Frenchland Burn,
 Dumfriesshire (AUGD 2195 (2), 2250, 2265).
 ENGLAND, Mosedale, Westmorland (BMNH P2030
 (3), P7941-5), Skelgill, Westmorland (BMNH P2031).
 Note: A specimen at Birmingham University (BU 1671)
 was designated provisionally as neotype by Sudbury
 1958: 500.

Graptolites latus M'Coy 1851

- 10, 141. (Ord., Skiddaw slates)
 37, 51, fig. 19. (Ord., Skiddaw slates)

Graptolites lobiferus M'Coy 1850

- 18, 32-3, pl. 19, figs. 29, 30. (Sil., Dumfriesshire)

Graptolites lobiferus var. *exiguus* Nicholson 1868

- 18, 533, pl. 19, figs. 27, 28.
 pl. 19, fig. 27, 28 BMNH Q96 ? (Sil., Skelgill)
 Nicholson material: SCOTLAND, Caddonfoot,
 Selkirkshire (BMNH 56616; AUGD 2257); ENGLAND,
 Skelgill, Westmorland (BMNH Q96).
 HOLOTYPE: specimen figured Nicholson 1868, pl. 19,
 fig. 27.
 'The specimen is unlikely to be recognised': Strachan
 1971: 54.

Graptolites lobiferus var. *nicoli* Harkness 1851

- 18, 533. (Sil., Coniston flags)

Graptolites nilssoni (Barrande 1850)

- 10, 142 (Ord., Skiddaw slates ?). 12, 241 (Sil., Ludlow).
 18, 537-8, pl. 20, figs. 18, 19.
 pl. 20, fig. 18, 19 BMNH Q100 ?? (Sil., Skelgill)
 37, fig. 15B. (Sil., Skelgill/Dumfriesshire)

Graptolites nilssoni var. *major* Nicholson 1868

- 18, pl. 20, figs. 20, 21. (Sil., Dumfriesshire)
 Note: I have found no Nicholson material of this
 subspecies.

Graptolites nilssoni var. *minor* Nicholson 1868

- 18, 537-8, pl. 20, figs. 16, 17. (Sil., Dumfriesshire)
 Note: I have found no Nicholson material of this
 subspecies.

Graptolites priodon (Bronn 1835)

- 12, 241. (Sil., Ludlow)
 18, 540, pl. 20, figs. 6-8.
 pl. 20, fig. 6 BMNH P2080 ? (Sil., Broughton Moor)
 30, 379, fig. 4c, d.
 fig. 4c BMNH P2080 ? (Sil., Broughton Moor)

 Nicholson material: ENGLAND, Coldale, Westmorland (AUGD 10617).
- Planolites granosus* Nicholson 1873 (nom. nud.) 1978
167, 31-32, pl. 4, figs. 3-5.
 pl. 4, fig. 3, 3a AUGD 10618 (Ord., Outerside)
 4 AUGD 10619 (Ord., Outerside)
 5 AUGD 10620 (Ord., Ellergill)
 Nicholson material: ENGLAND, Ellergill, Westmorland (AUGD 10620), Outerside, Westmorland (AUGD 10618-9, 10621-3).
- Planolites vulgaris* Nicholson 1873 (nom. nud.), Nicholson & Hinde 1874
67, 139. (Sil., Dundas)
80, 42, fig. 18. (Sil., Dundas)
179, fig. 63 (= 80, fig. 18).
174, fig. 348 (= 80, fig. 18).
167, 28-31, fig. 4 (copy), pl. 1, fig. 2, pl. 2, figs. 1, 3.
 pl. 1, fig. 2 AUGD 10624 (Ord., Barff)
 pl. 2, fig. 1 AUGD 10625 (Ord., Mirehouse)
 3 AUGD 10626 (Ord., Outerside)
 Nicholson material: ENGLAND, Barff, Westmorland (AUGD 10624), Mirehouse, Westmorland (AUGD 10625), Outerside, Westmorland (AUGD 10626).
 Note: Alpert (1975) reviewed the ichnogenus *Planolites* Nich. 1873 without knowledge of Nicholson's then unpublished Ms. (167).
- Rusophycus bilobatus* Hall 1847
80, 38, fig. 14.
 fig. 14 AUGD 4571 (Ord., Weston)
- Skolithos canadensis* Billings 1865
167, 22-23, pl. 2, fig. 2.
 pl. 2, fig. 2 AUGD 10627 (Ord., Stiper Stones)
- Skolithos linearis* Hall 1847
167, 23-24. (Ord., USA and Labrador)
- Skolithos verticalis* Hall 1852
67, 138. (Sil., Dundas)
80, 40-1, fig. 16.
 fig. 16 AUGD 10123 (Sil., Dundas)
167, 24. (Sil., Monroe Co., N.Y.)
- ALGAE**
- Girvanella problematica* Nicholson & Etheridge 1878
123, 23-4, pl. 9, fig. 24. (Ord., Tramitchell)
153, 22-4, fig. 5A, B RSM slide 1968.15.391 (Ord., Craighead)
174, fig. 32 (= 153, fig. 5).
 Nicholson material: SCOTLAND, Craighead, Ayrshire (RSM slide 1968.15.391), Tramitchell, Ayrshire (BMNH V20734, V34556; AUGD 1st yr. 1091, slide A2).
 NEOTYPE: BMNH V34556: Wood 1957: 27.
- Mitcheldeania gregaria* Nicholson 1888
153, 17-19, figs. 1A-G, 2. (Carb., Kershope Foot)
174, fig. 82 (= 153, fig. 2).
 Nicholson material: SCOTLAND, Kershope Foot, Roxburghshire (AUGD 1237 (83), 9835 (2), 10640 (2)); ENGLAND, High Longhouse, Northumberland (RSM slides 1968.15.396-7).
 Note: Wood (1940:221) says: 'Apparently Nicholson's types are lost... In any case, it would be practically impossible to identify the type specimens with certainty from Nicholson's line drawings.'
 NEOTYPE: GSM slide 70741 (Wethered Coll.): Wood, 1941:221.
- Nidulites favus* Salter 1851
123, 18-19, pl. 9, figs. 15-22.
 pl. 9, fig. 15 BMNH V16092 (Ord., Mulloch Hill)
 16 BMNH V16093 (Ord., Mulloch Hill)
 17 BMNH V16094 (Ord., Mulloch Hill)
 18 BMNH V16095 (Ord., Mulloch Hill)
 19 BMNH V16106 ? (Ord., Mulloch Hill)
 20 BMNH V16096 (Ord., Mulloch Hill)
 21 GSM 10480 (Ord., Haverford West)
 22 BMNH V16097 (Ord., Mulloch Hill)
 Note: pl. 9, fig. 22 is given as '24' on the plate.
- Nidulites parvus* Etheridge & Nicholson 1878
123, 18. (Ord., Balcletchie)
 Note: This species was only provisionally proposed.
- Solenopora compacta* (Billings 1865)
142, 529-35, pl. 13, figs. 1, 4-8.
 pl. 13, fig. 4 BMNH slide V15942/3 (Ord., Prince Edward's County)
 5 BMNH slide V15941 (Ord., Prince Edward's County)
 6 AUGD slide 02808 (Ord., Saak)
 7, 8 BMNH slide V15958 (Ord., Saak)
- Solenopora compacta* var. *peachii* (Nicholson & Etheridge 1877)
113, 166-9, figs. d-g ('*Tetradium peachii*') (Sil., Habbies Howe)
123, 31-3, pl. 1, fig. 3, pl. 2, fig. 1 ('*Tetradium peachii*').
 pl. 1, fig. 3 RSM slide 1967.66.49 (Ord., Craighead)
 pl. 2, fig. 1 RSM slide 1967.66.49 (Ord., Craighead)
 1a RSM slide 1967.66.49 (Ord., Craighead)
 1b BMNH V16080 (Ord., Craighead)
142, 534-5, pl. 13, figs. 2, 3, 9.
 pl. 13, fig. 2 AUGD slide 02806 ?(Ord., Craighead)
 3 AUGD slide 02805 ?(Ord., Craighead)
 9 AUGD slide 02807 (Ord., Craighead)
153, 20-1, fig. 3A (= 142, pl. 13, fig. 1)-D.
 fig. 3C AUGD slide 02808/BMNH slide V15958 ? (Ord., Saak)
 D BMNH slide V15959 (Ord., Saak)
174, fig. 83 (= 153, fig. 3).
 Nicholson material: SCOTLAND, Craighead, Ayrshire

(RSM slide 1967.66.49; BMNH slides V16080, V45104, R475, R27245; AUGD 10636 (6), 10639, slides 02805-7), Girvan, Ayrshire (BMNH slides V45103), Habbies Howe, Midlothian (RSM slides 1967.66.50-56; BMNH R31131); ENGLAND, Froderley Quarry; Hoar Edge (BMNH slide V15955); USSR, Saak, Estonia (BMNH slides V15958-9; AUGD slide 02808).

Solenopora ? filiformis Nicholson 1888

- 153, 21-2, fig. 4.
 fig. 4A BMNH slide V15952 (Ord., Craighead)
 B BMNH slide V15953 (Ord., Craighead)
 Nicholson material: SCOTLAND, Craighead, Ayrshire (BMNH slides V15952-4); ENGLAND, Malton, Yorkshire (AUGD 10637 (2)).

ADDENDA

- p. iv Note: R Kirkpatrick, who was the first to recognise the true sclerosponge affinities of stromatoporoids in 1912, later developed eccentric views in his book "The Nummulosphere" (1917; London, Lamley & Co.). Using Nicholson's slides, some of which he figured (pp. 221-235, fig. 29, 30, pl. 4) he interpreted stromatoporoids as inorganic accumulations of Foraminifera.
 See S.J. Gould, 1978. Crazy old Randolph Kirkpatrick. *Natural Science*, 87(3): 20.
- p. 19 *Actinostroma clathratum*
 To list of Nicholson material from Teignmouth, add BMNH P5713, P5714(2).
- p. 20. *Actinostroma stellulatum*
 To list of Nicholson material from Teignmouth, add BMNH P5942, from Gerolstein add BMNH P6117(3).
- p. 26. *Stromatopora carteri*
 To list of Nicholson material add: Bentall Edge, Shropshire BMNH H4276
- p. 28. *Stromatopora mammillata* Nicholson 1873
 Note: non *Stromatopora mammillata* Schmidt 1858
- p. 33. *Columnaria halli*
 To the note add: Jull (1976a: pl. 1, figs. 1a, 3b) figures the 'holotypes', GSC 6690, 6690a, and discusses the hystero-ontogeny of *Foerstiphyllum halli* (Nicholson 1875).
- p. 35. *Heliophyllum subcaespitosum*
 To the list of Nicholson material from Western Ontario add: BMNH 56684, and from Arkona, add: AUGD 10745(2).
- p. 79. Additional reference: Jull, R.K., 1976a. Septal development during hystero-ontogeny in the Ordovician tabulate coral *Foerstiphyllum*. *J. Paleont.*, 50: 380-391.

INDEX OF LOCALITIES

Note: Spelling of locality names is that used by Nicholson.
Many have changed since then.

Abereiddy Bay, Pembrokeshire, WALES.

Aldens, Girvan, Ayrshire, SCOTLAND.

Anticosti, Ontario, CANADA.

Arbigland, Dumfriesshire, SCOTLAND.

Ardmillan Brae, Girvan, Ayrshire, SCOTLAND.

Ardwell, Girvan, Ayrshire, SCOTLAND.

Arkona, Ontario, CANADA.

Auchenskeoch, Dalry, Ayrshire, SCOTLAND.

Ayrshire, SCOTLAND.

Babbacombe, Devon, ENGLAND.

Balcletchie, Girvan, Ayrshire, SCOTLAND.

Barff, Keswick, Cumberland, ENGLAND.

Bargany Pond, Girvan, Ayrshire, SCOTLAND.

Barrow, Keswick, Cumberland, ENGLAND.

Bathgate, West Lothian, SCOTLAND.

Beith, Ayrshire, SCOTLAND.

Benthall Edge, Much Wenlock, Shropshire, ENGLAND.

Blair House, Girvan, Ayrshire, SCOTLAND.

Boghead, Lesmahagow, Lanarkshire, SCOTLAND.

Bow Bridge, Ludlow, Shropshire, ENGLAND.

Braithwaite Brow, Cumberland, ENGLAND.

Broadstones, Beith, Ayrshire, SCOTLAND.

Brockley, Lesmahagow, Lanarkshire, SCOTLAND.

Broken River, Queensland, AUSTRALIA.

Broughton Moor, Cumberland, ENGLAND.

Browgill, Westmorland, ENGLAND.

Büchel, Eifel, GERMANY.

Buildwas, Shropshire, ENGLAND.

Cairn Ryan, Dumfriesshire, SCOTLAND.

Cambridge, Cambridgeshire, ENGLAND.

Canandaigua, New York, USA.

Cape Churchill, Ontario, CANADA.

Cape Smyth, Lake Huron, Ontario, CANADA.

Cedarville, Ohio, USA.

Chalonnes, Mayenne, FRANCE.	Garple Linn, Dumfriesshire, SCOTLAND.
Charleston, Fife, SCOTLAND.	Gateside, Beith, Ayrshire, SCOTLAND.
Cincinnati, Ohio, USA.	Gees, Gerolstein, Eifel, GERMANY.
Coldale, Cumberland, ENGLAND.	Gerolstein, Eifel, GERMANY.
Collingwood, Ontario, CANADA.	Girvan, Ayrshire, SCOTLAND.
Columbus, Ohio, USA.	Glenkiln Burn, Dumfriesshire, SCOTLAND.
Combe Hill, Henbury, Bristol, Gloucestershire, ENGLAND.	Gotland, SWEDEN.
Couchiching, Ontario, CANADA.	Grieston, Innerleithen, Peeblesshire, SCOTLAND.
Cousland, Dalkeith, Midlothian, SCOTLAND.	Guelph, Ontario, CANADA.
Craighead, Girvan, Ayrshire, SCOTLAND.	Habbies Howe, Pentland Hills, Midlothian, SCOTLAND.
Credit River, Ontario, CANADA.	Hagersville, Ontario, CANADA.
Cults, Fife, SCOTLAND.	Hambrug, New York, USA.
Cumberland, ENGLAND.	Hand, Paffrath, Eifel, GERMANY.
Dahlem, Eifel, GERMANY.	Hardendale, Shap, Westmorland, ENGLAND.
Dartington, Devon, ENGLAND.	Harper's Hill, Maitland, New South Wales, AUSTRALIA.
Devonshire, ENGLAND.	Hart Fell, Dumfriesshire, SCOTLAND.
Dobb's Linn, Dumfriesshire, SCOTLAND.	Haverfordwest, Pembrokeshire, WALES.
Dormington, Shropshire, ENGLAND.	Hayes River, Hudson Bay, Ontario, CANADA.
Drummuck, Girvan, Ayrshire, SCOTLAND.	Hebborn, Eifel, GERMANY.
Dudley, Staffordshire, ENGLAND.	Helmside, Dent, Yorkshire, ENGLAND.
Duffkinnel, Dumfriesshire, SCOTLAND.	Hespeler, Ontario, CANADA.
Dufton, Westmorland, ENGLAND.	Hodgson-How quarry, Portinscale, Cumberland, ENGLAND.
Dumfriesshire, SCOTLAND.	Hoheneichen, Estonia, USSR.
Dunbar, East Lothian, SCOTLAND.	Horton, Ribblesdale, Yorkshire, ENGLAND.
Dundas, Ontario, CANADA.	Indiana, USA.
Durnish, Co. Limerick, EIRE.	Ironbridge, Shropshire, ENGLAND.
Ecclefechan, Dumfriesshire, SCOTLAND.	Jarvis, Ontario, CANADA.
Eifel, GERMANY.	Kangatomapank, Oesel, Estonia, USSR.
Ellergill, Milburn, Westmorland, ENGLAND.	Kashmir, INDIA.
Elora, Ontario, CANADA.	Kattentack, Estonia, USSR.
Erie Co., New York, USA.	Kattripank, Oesel, Estonia, USSR.
Errinal, Estonia, USSR.	Kelley's Island, Ohio, USA.
Estonia, USSR.	Kendal, Westmorland, ENGLAND.
Falls of the Ohio, Kentucky, USA.	Kershope Foot, Roxburghshire, SCOTLAND.
Fanning River, Queensland, AUSTRALIA.	Knockdolian, Girvan, Ayrshire, SCOTLAND.
Feilden isthmus, Arctic.	Knockgardner, Ayrshire, SCOTLAND.
Fife, SCOTLAND.	Knockgeeran, Girvan, Ayrshire, SCOTLAND.
Frenchland Burn, Dumfriesshire, SCOTLAND.	La Baconnière, Laval, Mayenne, FRANCE.

Ladyburn, Drummuck, Girvan, Ayrshire, SCOTLAND.
Lake Manitoba, Manitoba, CANADA.
Lake Winnipegosis, Manitoba, CANADA.
Lampeter, Pembrokeshire, WALES.
Lanarkshire, SCOTLAND.
Lancashire, ENGLAND.
Langside, Beith, Ayrshire, SCOTLAND.
L'Anse au Gascon, Quebec, CANADA.
Lebanon, Ohio, USA.
Little Red River, Manitoba, CANADA.
Longmynd, Shropshire, ENGLAND.
Long Sleddale, Cumberland, ENGLAND.
Louisville, Kentucky, USA.
Lummaton, Devon, ENGLAND.
Manitoulin Island, Ontario, CANADA.
Marblehead, Ottawa Co., Ohio, USA.
Marion Co., Kentucky, USA.
Mirehouse, Westmorland, ENGLAND.
Monroe Co., New York, USA.
Montjean, Gallois, FRANCE.
Mosedale, Westmorland, ENGLAND.
Much Wenlock, Shropshire, ENGLAND.
Muirhouse, Skiddaw, Cumberland, ENGLAND.
Muirkirk, Ayrshire, SCOTLAND.
Mulloch Hill, Girvan, Ayrshire, SCOTLAND.
Mungrisedale, Cumberland, ENGLAND.
New South Wales, AUSTRALIA.
Newton Abbott, Devon, ENGLAND.
Northumberland, ENGLAND.
Oesel, Estonia, USSR.
Ohio, USA.
Ontario, CANADA.
Ottawa, Ontario, CANADA.
Outerside, Westmorland, ENGLAND.
Owen Sound, Ontario, CANADA.
Paffrath, Eifel, GERMANY.
Peelwyke, Cumberland, ENGLAND.
Penkill, Girvan, Ayrshire, SCOTLAND.
Penrith, Cumberland, ENGLAND.
Penruddock, Cumberland, ENGLAND.
Penwhapple Glen, Girvan, Ayrshire, SCOTLAND.
Peterboro' (= Peterborough), Ontario, CANADA.
Pit Park Quarry, Dartington, Devon, ENGLAND.
Point Lévis, Quebec, CANADA.
Pomeroy, EIRE.
Port Colborne, Ontario, CANADA.
Prince Edward's Co., Ontario, CANADA.
Pull Beck, Ambleside, Westmorland, ENGLAND.
Queensland, AUSTRALIA.
Rake Beck, Melmerby, Westmorland, ENGLAND.
Randal Crag, Cumberland, ENGLAND.
Ravenswood, Bosanquet, Ontario, CANADA.
Redesdale, Northumberland, ENGLAND.
Ridgeway, Ontario, CANADA.
Ristigouche, New Brunswick, CANADA.
Rockford, Iowa, USA.
Rockwood, Ontario, CANADA.
Rough Range, Western Australia, AUSTRALIA.
Saage/Ridaka, Estonia, USSR.
Saak, Estonia, USSR.
St. Mary's, Ontario, CANADA.
Sandusky, Ohio, USA.
Scale Hill, Crummock, Cumberland, ENGLAND.
Sedbergh, Yorkshire, ENGLAND.
Sedgeley, Shropshire, ENGLAND.
Shaldon, Devon, ENGLAND.
Shalloch Mill, Girvan, Ayrshire, SCOTLAND.
Shap, Westmorland, ENGLAND.
Shiels, East Kilbride, Lanarkshire, SCOTLAND.
Shropshire, ENGLAND.
Skelgill Beck, Westmorland, ENGLAND.
Sötenich, Eifel, GERMANY.
South Devon, ENGLAND.
Steinbreche, Eifel, GERMANY.
Stinchar River, Girvan, Ayrshire, SCOTLAND.

Stiper Stones, Shropshire, ENGLAND.
Stoke-Edith, Herefordshire, ENGLAND.
Storm Hill, Llandeilo, WALES.
Suffolk, ENGLAND.
Tasmania, AUSTRALIA.
Teignmouth, Devon, ENGLAND.
Thetford, Ontario, CANADA.
Thirdpart, Beith, Ayrshire, SCOTLAND.
Thornilee, Innerleithen, Peeblesshire, SCOTLAND.
Thornship Beck, Shap, Westmorland, ENGLAND.
Thorold, Ontario, CANADA.
Thraive Glen, Girvan, Ayrshire, SCOTLAND.
Toronto, Ontario, CANADA.
Torver Beck, Westmorland, ENGLAND.
Tramitchel (= Tormitchell), Girvan, Ayrshire, SCOTLAND.
Trearne, Beith, Ayrshire, SCOTLAND.
Trenton, Ontario, CANADA.
Viré, Sarthe, FRANCE.
Wainfleet, Ontario, CANADA.
Waldron, Indiana, USA.
Walpole, Ontario, CANADA.
Wath Brow, Cumberland, ENGLAND.
Waynesville, Ohio, USA.
Westmorland, ENGLAND.
Weston, Ontario, CANADA.
Whitby, Ontario, CANADA.
Whitehouse, Girvan, Ayrshire, SCOTLAND.
White Houses, Cumberland, ENGLAND.
Widder, Ontario, CANADA.
Wisby (= Visby), Gotland, SWEDEN.
Woodland Point, Girvan, Ayrshire, SCOTLAND.
Wood Point, Ontario, CANADA.
Woodstock, Ontario, CANADA.
Yellow Springs, Ohio, USA.

Index of Genera and Species

	<i>Amphipora</i>	20	<i>armatus, Diplograptus</i>	71	
	<i>Amphispongia</i>	18	<i>articulatus, Planolites</i>	77	
	<i>ampla, Strophomena</i>	61	<i>arundinaceum, Diphiphyllum</i>	34	
	<i>Amplexopora</i>	48	<i>Asaphus</i>	64	
	<i>Amplexus</i>	31	<i>Ascidiocyton</i>	48	
	<i>Ampyx</i>	64	<i>aspera, Dekayia</i>	52	
	<i>anceps, Didymograptus</i>	70	<i>aspera, Favosites</i>	41	
	<i>andersoni, Bronteus</i>	64	<i>aspera, Pocillipora</i>	38	
<i>acanthodes, Cheirurus bimucronatus</i>	65	<i>andersoni, Calostylis</i>	32	<i>Aspidophyllum</i>	31
<i>Acervularia</i>	31	<i>andersoni, Pinacopora</i>	45	<i>astraiformis, Stauria</i>	37
<i>Acidaspis</i>	63	<i>andrewsii, Monticulipora (Heterotrypa)</i>	55	<i>Asteraeophyllum</i>	31
<i>Acrophyllum</i>	31	<i>anglicus, Ptilograptus</i>	68	<i>Asteraespongia</i>	18
<i>Actinostroma</i>	18	<i>angulata, Heterophyllia</i>	37	<i>astrigera, Stromatopora concentrica</i>	25
<i>aculeata, Raphidopora crinalis</i>	46	<i>angulatus, Spirorbis</i>	76	<i>astroites, Actinostroma</i>	18
<i>acuminata, Dawsonia</i>	69	<i>angustifolius, Diplograptus</i>	71	<i>Athyris</i>	59
<i>acuminata, Trimerella</i>	61	<i>angustifolius, Phyllograptus</i>	74	<i>Atrypa</i>	59
<i>acuminatus, Diplograptus</i>	71	<i>angustus, Harpes</i>	65	<i>attenuatus, Tentaculites</i>	75
<i>acuta, Polypora</i>	57	<i>annulata, Cannapora</i>	39	<i>attrita, Dekayia</i>	52
<i>acutiradiata, Chonetes</i>	60	<i>annulatus, Ctenograptus</i>	69	<i>attritus, Chaetetes</i>	39, 49
<i>aemulus, Illaenus</i>	65	<i>annulatus, Dichograptus</i>	69	<i>Aulopora</i>	39, 48
<i>aequisulcatum, Streptelasma (?)</i>	37	<i>Antedon</i>	68	<i>auloporoides, Alecto</i>	47
<i>affinis, Didymograptus</i>	70	<i>antennarius, Climacograptus</i>	69	<i>auloporoides, Stomatopora</i>	59
<i>agglomerata, Halyrites</i>	43	<i>antennarius, Diplograptus</i>	71	<i>australis, Araeopora</i>	39
<i>aggregatum, Streptelasma</i>	37	<i>antheloidea, Constellaria</i>	52	<i>australis, Stenopora</i>	58
<i>agnostiformis, Agnostus</i>	63	<i>antiqua, Pachystroma</i>	24	<i>Azygograptus</i>	69
<i>Agnostus</i>	63	<i>antiqua, Stromatopora</i>	25	<i>bacillaris, Cladochonus</i>	40
<i>alatus, Tetragraptus</i>	75	<i>approximatum, Blothrophyllum</i>	32	<i>barrandi, Lichas</i>	66
<i>alcicornis, Millepora</i>	31	<i>approximatus, Chaetetes</i>	39, 49	<i>barrandi, Chaetetes</i>	39, 49
<i>aldensis, Beyrichia</i>	67	<i>approximatus, Tetragraptus</i>	75	<i>barrandi, Monticulipora</i>	54
<i>Alecto</i>	47	<i>arachnoidea, Aulopora</i>	39, 48	<i>barrandi, Monticulipora (Heterotrypa)</i>	55
<i>Allopora</i>	31	<i>arachnoidea, Stromatoporella</i>	29	<i>barrandiana, Primitia</i>	68
<i>alonensis, Ampyx (Raphiophorus)</i>	64	<i>Araeopora</i>	39	<i>barrandii, Remopleurides (Caphyra)</i>	66
<i>alternata, Strophomena</i>	61	<i>archiaci, Crepidophyllum</i>	33	<i>basaltica, Favosites</i>	41
<i>Alveolaria</i>	47	<i>archiaci, Diphiphyllum</i>	34	<i>basaltiforme, Lithostrotion</i>	35
<i>alveolaris, Desmidopora</i>	41	<i>arctica, Stenopora howsii</i>	59	<i>battersbyi, Alveolites</i>	38
<i>alveolaris, Labechia</i>	23	<i>arctipora, Polypora (?)</i>	57	<i>battersbyi, Caliapora</i>	39
<i>alveolata, Columnaria</i>	32	<i>arcuata, Chonetes</i>	60	<i>Beatricea</i>	20
<i>Alveolites</i>	38	<i>Arenicolites</i>	76	<i>bellicincta, Murchisonia</i>	62
<i>Ambocoelia</i>	59	<i>arenosus, Encrinurus punctatus</i>	65	<i>beuthii, Stromatopora</i>	25
<i>Ambonychia</i>	63	<i>argenteus, Graptolites</i>	73	<i>Beyrichia</i>	67
<i>americanum, Cystiphyllum</i>	33	<i>arkonensis, Spirorbis</i>	76	<i>bicornis, Climacograptus</i>	69
<i>americanus, Agnostus</i>	63	<i>armata, Cyclopyge</i>	65	<i>bicornis, Diplograptus</i>	71

<i>bifarium</i> , <i>Actinostroma</i>	18	<i>calicina</i> , <i>Columnaria</i> (<i>Favistella</i>)	32	<i>Ceriopora</i>	49
